Member Benefits and Coverage Guide

Synthetic training document for an educational RAG project. This is not an official Aetna policy or plan document.

Purpose

This guide describes a fictional commercial health plan used for training. It explains eligibility, covered services, cost sharing, and network rules that a member-support team may need to reference.

Eligibility and Enrollment

Coverage begins on the effective date recorded for the member. Eligibility can depend on employment status, enrollment elections, dependent eligibility, and premium status. A member should verify demographic information and the effective date before receiving scheduled services.

Cost Sharing

Member responsibility may include deductible, copay, and coinsurance. The deductible is the amount paid by the member before certain plan benefits begin sharing costs. A copay is a fixed amount. Coinsurance is a percentage of the allowed amount.

Network Rules

In-network providers have negotiated reimbursement arrangements. Out-of-network services may have higher member responsibility or may not be covered, depending on the plan and the type of service.

Example Benefit Summary

Service	In-Network Member Cost	Prior Authorization
Preventive visit	$0	No
Primary care visit	$25 copay	No
Specialist visit	$50 copay	No
Advanced imaging	20% coinsurance	Often required
Inpatient admission	20% coinsurance after deductible	Required
