Member Grievances and Escalation Guide

Synthetic training document for an educational RAG project. This is not an official Aetna policy or plan document.

Grievance Overview

A grievance is a complaint that may relate to service quality, communication, access, billing experience, provider behavior, or another non-coverage concern.

Escalation

Issues involving urgent access, potential safety concerns, repeated unresolved complaints, or regulatory deadlines may require escalation.

Documentation

A grievance record should capture the member concern, date received, category, actions taken, responsible team, due date, and resolution.

Human-in-the-Loop

Sensitive or high-impact grievances should be reviewed by an authorized human before final disposition.

Example Grievance Routing

Category	Example	Route To	Urgency
Access	Unable to find in-network specialist	Network Support	Standard
Service quality	Poor provider interaction	Member Services	Standard
Safety	Potential patient safety concern	Clinical Escalation	Urgent
Billing	Unexpected provider bill	Claims / Billing Review	Standard
